1. Welcome to EDY

EDY is a community-driven meme token built on The Open Network (TON). Our goal is to create a mascot that is instantly recognizable across the TON ecosystem through creativity, consistency and community participation rather than short-term hype.

2. Vision

EDY aims to become one of the best-known community mascots on TON. We focus on organic growth, entertaining content, transparency and long-term brand building.

3. Why TON?

The Open Network combines speed, low transaction fees and an expanding ecosystem. EDY is built on TON because it provides an excellent foundation for a global community.

4. Token Information

Name: EDY

Symbol: EDY

Network: TON

Contract Address:

EQA6sS6vBv8dgpngjBwAUNUzc_kv12I6rswTxLv3vXyhETRI

5. Community

Everyone is welcome to participate by creating memes, sharing ideas, supporting the project and helping introduce new users to TON. EDY is built with the community, not just for it.

6. Roadmap

Phase 1: Launch, website, branding, social channels.

Phase 2: Tonkeeper verification, CoinGecko listing, CoinMarketCap application, continued marketing and community growth.

Phase 3: Partnerships, expanded mascot content, ecosystem collaborations and community events.

7. Philosophy

EDY makes no promises of guaranteed returns. The project is committed to transparency, consistent development and building lasting value through its community and brand.

8. Disclaimer

Cryptocurrencies and meme tokens are speculative assets and involve risk. Nothing in this litepaper constitutes financial, investment or legal advice. Always do your own research.
